Subject: Facility Response Plans for Magellan Pipeline Company L.P. Plains District (Enid Terminal FRP-06-OK-00002, Ft Smith Terminal **FRP-06-AR-00053**, Oklahoma City Reno FRP-06-OK-00115, West Tulsa Terminal FRP-06-OK-00001) and Southern District (Aledo Terminal FRP-06-TX-0052, Odessa Terminal FRP-06TX00673)

Dear Mr. Smith:

On behalf of Magellan Pipeline Company, L.P. (MPC), I am herein submitting updated Facility Response Plans for the above reference facilities.

This plan revision reflects changes resulting from organizational changes within our company. Along with the hardcopy ICP update packets, I am including Compact Discs which contains the plans in an electronic format. You will notice that the Emergency Response Action Plans have been replaced altogether so as to save you the effort of sorting and replacing effected pages. However, the Integrated Contingency Plan changes were of a relatively manageable extent so an update packet is provided for replacement in your existing binder.

If you would like to discuss the details of this submittal, please call me at (918) 574-7309. Please forward all correspondence to my attention at the address indicated above, or by email to greg.mcmillan@magellanlp.com.

Sincerely,

Greg McMillan
Environmental Specialist
Magellan Pipeline Company, L.P.
